When it comes to beauty, we embrace your details, enhancing what makes you, you

EMBRACE

# REFRESH

Products in the JUVÉDERM® collection of hyaluronic acid facial fillers<sup>1-8</sup> can help delicately refresh your features by:

- Hydrating your skin<sup>5,9</sup>
- Reviving your under-eye<sup>8,10</sup>
- Volumising your cheeks<sup>4,6</sup>
- Adding volume and definition to plump your lips<sup>3,4,8,12</sup>
- Contouring your chin and jawline<sup>7,13,14</sup>

All while maintaining a natural look and feel.\*<sup>12</sup> Plus, results can last for 9–24 months depending on product and treatment chosen<sup>9,15</sup>

---

91% were satisfied with the appearance of their skin one month after their treatment<sup>†16</sup>

---

\* The open label study evaluated the use of Juvéderm® VOLBELLA with Lidocaine in lip augmentation over a period of 12 months.<sup>12</sup>

† Based on FACE-Q Satisfaction with Skin score of 90.8% (N=131) at Month 1. Responses were rated on a 4-point scale (1: very dissatisfied; 4: very satisfied). FACE-Q Satisfaction with Skin score was calculated by summing the responses to the 12 items and converting to a scale score (range: 0–100).<sup>16</sup> Study was conducted with Juvéderm® VOLITE™ without Lidocaine.<sup>16</sup> The addition of Lidocaine does not alter the physical properties of JUVÉDERM® products.<sup>17</sup>

# There's more to facial fillers than meets the eye

Almost two-thirds of people surveyed reported they see facial aesthetics treatments as part of their self-care routine<sup>17</sup> and 72% felt non-surgical aesthetics boost their confidence.\*\*<sup>17</sup>

So, whether you're after lift,<sup>4,11</sup> plump<sup>4,8</sup> or contour<sup>6</sup> JUVÉDERM® collection of hyaluronic acid facial fillers can help, and can last for 9–24 months, depending on treatment and product chosen.<sup>9,15</sup>

From a scatter of freckles and afternoon strolls, to knowing looks and a cup of tea before bed, we celebrate beauty that's more than skin deep. After all, it's the little things that make you, you.

## REFRESH

### Refresh your natural features

Whether you just want to refresh your everyday look or there's a special day on its way, JUVÉDERM® can help reduce fine lines<sup>5,8</sup> and restore fullness.<sup>8</sup>

### Restore your volume

If you're thinking of restoring your facial harmony, take a look at our products which may address deep lines.<sup>2-4</sup>

\*\*Survey comprised of 10,681 online interviews carried out with aesthetically aware men and women, aged between 25–55 across 14 countries during August and September 2019.<sup>17</sup> These results reflect a survey from a specific population and cannot be attributed to the population at large.

# Juvéderm® can help...

- Add volume to your cheeks<sup>4,6</sup>

- Volumise and refine your lips<sup>3,4,8,12</sup>
- Smooth lines around your mouth<sup>3,4,8,12</sup>

- Smooth lines around your eyes<sup>8,11</sup>
- Lift and project your eyebrows<sup>4,11</sup>
- Soften the appearance of your under-eye<sup>8,11</sup>
- Add volume to your temples<sup>4,6,11</sup>

RENEW

- Contour your chin and jawline<sup>7,13,14</sup>

We're  
delighted,  
you're  
delighted

96%  
were 'delighted'  
or 'happy' with  
their results right  
after treatment.<sup>§19</sup>

§ 110 out of a study of 115 patients treated with Juvéderm® VOLUMA with Lidocaine, part of the JUVÉDERM® range of products.<sup>19</sup>

Before After\*\*

Patient received Juvéderm® VOLUMA with lidocaine in the cheeks (4 mL), Juvéderm® VOLUMA with lidocaine in the temples (2 mL) and (1 mL) of Juvéderm® VOLUX in the chin. This patient has also had their lips treated.

Before After\*\*

Patient received JUVÉDERM® VOLUX™ (3 mL) in the chin and jawline, (4 mL) of VOLUMA® in cheeks, and patient lips was also treated. This patient has also had their tear troughs, cheeks and nasolabial folds treated.

\*\*Patients received a variety of JUVÉDERM® products. Individual patient results may vary. Images for illustrative purposes only.

# What to expect

## What will happen during my appointment?

In order to assess which treatment is right for you, during your consultation your practitioner will take the time to understand what you're looking for and discuss a treatment plan.<sup>19</sup> Depending on this, one treatment session can take 20 minutes to an hour.<sup>20</sup>

## What does “natural-looking result” mean?

It's all about still looking like you – whether you're smiling, laughing or frowning. During your consultation, your practitioner will assess your face whilst it's still (static) and moving (dynamic) with the aim of giving you a result that looks and feels natural.<sup>19</sup>

## What does the treatment feel like?

Many products in our collection contain Lidocaine, which is a mild local anaesthetic that helps to numb the area of injection.<sup>2-8</sup>

## When can I get back to my day?

With the possibility of minimal downtime, you may get back to doing the things you love on the following day, depending on the treatment chosen.<sup>16</sup>

## Any dos & don'ts?

Your practitioner may advise avoiding things like wearing makeup on the treated areas, extended periods in the sun, saunas, UV rays or very cold temperatures following your treatment.<sup>2-8</sup>

## Beauty is personal

When it comes to beauty, we like to get up close and personal.

Your practitioner will work with you to create a unique treatment plan. Your first consultation is dedicated to discovering more about you, the features you love and exploring your treatment needs.<sup>19</sup>

### In expert hands

Like all medical procedures, treatments with JUVÉDERM® may cause side effects. To minimise the risks of potential side effects, JUVÉDERM® should be only used by medical practitioners who have appropriate training and experience in injection techniques and are knowledgeable about the anatomy at and around the site of injection.<sup>2-8</sup>

### What to ask

Here are some things to consider before or discuss during your consultation:

1. How do you want to feel about your look?
2. What's your practitioner's experience with fillers? And knowledge of facial anatomy?
3. Can they share any before and after pictures? This can help give you a clear idea of what may be possible.
4. Talk about potential side effects, how to minimise risks and after care.

There's beauty  
in the little  
things that  
make you, you

Ask your practitioner about enhancing your natural beauty with Juvéderm® today.
